

# X-200 Oil Reset Tool

## With X-200, without worries about Resetting!

X-200 is a kind of professional handheld device for Oil Resetting. With the following functions:

Oil Reset/Engine oil light reset

Tire pressure warning light reset (manual operation)

Timing belt light reset (manual operation)

OBD-II engine diagnosis

EPB Electronic Brake changes brake pad

Throttle matching (GM,Honda,Nissan, Acura)

Support the latest vehicles with CAN BUS and UDS

### 1. Function features:

1 one click reset for VW, Audi. No need to input any channel number. It supports the vehicles till 2012. For A8L, A7, A6L, A5, A4L, A3, A1, Q5, Q7, Q3, TT, New Magotan, CC, New Lavidia, New Sagitar, New Passat, Superb, Fabia, Tiguan, Tiguan, Scirocco, Touareg etc., small maintenance or big maintenance inputs the service miles and days directly for automatic setting.

Note : Input the service miles and days directly, namely you can set the service miles according to the using oil model of your vehicle. e.g.: Audi 2.0T with the engine of spiral increase, in general, after the maintenance, mileage setting is 5000KM and days is 180D. So you can directly follow the prompt to input 5000KM, 180D. For VW, Audi models, setting cycle and mileage are as follow:

- |                                                                      |               |
|----------------------------------------------------------------------|---------------|
| ① VW, Audi with T engine: (e.g. : 1.8T, 2.0T etc)                    | 5000KM, 180D  |
| ② VW, Audi without T engine:                                         | 7500KM, 180D  |
| ③ VW, Audi big maintenance: (e.g.: A4L, Q5, A7 in 2012, A8L in 2012) | 30000KM, 730D |

Q: Can VW, Audi models reset by manual method?

A: Small maintenance for some models can reset, e.g.: A4L, but manual reset can only reset according to default value, most VW, Audi models the default value of small maintenance is 15000KM,365D. This cycle is obviously unsuitable for the environment of China. In addition,

most models do not support manual reset. Big maintenance (30000KM, 730D) must use the device to reset.

Q: Does X-200 support the new model A8L, A7, A3, A1, Tiguan, Magotan in 2012?

A: Support all, the latest VW, Audi adopt UDS deal, at present, most devices do not support checking and resetting for them. But X-200 can do that.

2 Support the replacement of EPB electronic brake pad for V.W, Audi.

3 Support engine oil, spark plugs, front brake pads, back brake pads, air conditioner, brake liquid, coolant liquid, vehicle checking , etc. reset for BMW. Note: the supported BMW models are F01/F02/F03/F04/F07/F10/F11/F12/F13/F18/F20/F30, etc.

4 Support the lifespan percentage setting of engine oil for Buick, Cadillac etc. (0~99, you can input different value according to the quality of engine oil)

5 Support for Mercedes Benz CAR series and Mercedes Benz VITO/VIANO/SPINTER. You can choose automatic setting according to the engine models.

6 Support Porsche Cayenne, Panamera till 2012

7 Support most of Europe, America, Asia and Chinese brands vehicles (some models do not support the device to reset, only support manual reset, we have installed the materials of manual reset for most models.)

8 Support maintenance light reset for Volvo、 Land Rover .

9 Support the diagnosis for the engine with OBD- II and OBD-CAN deal.

10 The method of part tire pressure warning light reset, timing belt light reset has been installed.

11 Detailed and clear instructions make the operation easier .(some models do not support the device to reset, only support manual reset, we have installed the materials of manual reset for most models. )

12 Support on-line update. Please use large capacity TF card to guarantee the updating successfully.

## **2. Maintenance light reset for the following vehicle model:**
